

RESEARCH INFORMATION

Credit Valley Conservation (CVC) is interested in knowing about any research relating to the Credit River watershed and surrounding areas. If you are planning or have already begun to do research or projects in the watershed, we would like to know. Please take a moment to fill out this page about your project(s) so that we may better keep track of how our watershed is changing.

Please mail/fax the completed form to:

Attn: Communications Officer
 Credit Valley Conservation
 1255 Old Derry Road
 Mississauga, ON L5N 6R4
 FAX: (905) 670-2210

Organization Name:	
Contact Name:	
Address:	
Phone Number:	
Email:	
Title of Research Project:	
Location <i>(be as specific as possible - GPS, lot & concession, distance away from intersection etc.):</i>	
State the timeframe within which the field activities will be carried out and when the study will take place <i>(For example - on rainy days, Mondays Wednesday and Fridays, after snowfall, etc.)</i>	

Provide a general outline of the research being conducted.
Is this research project part of a larger study?
Identify the procedures and equipment to be used and their potential impact on the location. What precautionary measures will be taken to avoid contamination or damage to the area?
State the names, dates and number of any licenses, permits or authorizations relating to the project.
Where and when will the results of this study be published?

State the names and contact information for the qualified persons assisting in the project and their expected contributions.
State the names and contact information of the contributors of the project.
Would you be willing to share this research information with CVC?
