2:30 pm Special Film Presentation
AN INCONVENIENT TRUTH
Only \$5

The 1st WeCARE Community Conservation Symposium was held in March 2006. Information was presented about the West Credit River Watershed – the natural environment, flora and fauna, surface water, groundwater, cultural heritage. Presenters shared with participants the ways that people interact with the watershed – how individuals, government agencies and community groups are involved in what happens to a watershed and how people get out enjoy and appreciate the West Credit.

With the 2nd Community Conservation Symposium, WeCARE hopes to expand upon the information and discussions presented in March – we would like to take the topics a step further – **join us....**

AN INCONVENIENT TRUTH

“offers a passionate and inspirational look at one man's fervent crusade to halt global warming's deadly progress in its tracks by exposing the myths and misconceptions that surround it”

The West Credit Appreciation, Rehabilitation and Enhancement Project is generously supported by a grant from the Ontario Trillium Foundation.
